

Welcome to the **ECOBLUE 20 lt TURBOFAN GAS GEYSER**

Features:

- ✍ Auto adjusting Water Temperature with remote
- ✍ Microprocessor controlled variable burners
- ✍ Turbofan for extreme combustion efficiency yielding
- ✍ Compact Size Unit with Exhaust Manifold
- ✍ Assignable temperature setting via Remote
- ✍ Self Diagnostics with easy to understand error codes
- ✍ Wind & Rain Proof with Anti-Freezing Protection
- ✍ Low starting Water Pressure from 0.1Bar
- ✍ High Power unit capable of supplying sufficient water to more than one outlet at a time
- ✍ LPG-Instantaneous Water Heater

Specifications:

Litres:	20l/min (200lin 10min continuous)
Gas type:	LPG
Gas pressure:	2.8kPa
LPG consumption at max:	2.85kg/hr
Rated electrical power:	60W for defrost
Rated heat input:	40 KW
Water pressure (MPa):	0.01-0.8
Ignition:	Electronic impulse
Heater dimension:	559 x 378 x 745 (mm)
Power supply:	A.C.240V 50Hz

Remote Temperature Adjustment
**note: size not to scale*
